STD/HIV Update for Clinicians Serving Diverse Populations

Monday
January 30, 2012
8 AM – 4:30 PM

Sponsored by:

Pacific AIDS Education and Training Center
California STD/HIV Prevention Training Center
Pacific Southwest Addiction Technology Transfer Center
Phoenix Indian Medical Center
Indian Health Service
Native Health

This program is supported in part with funds from Health Resources and Services Administration Cooperative Agreement (H4A HA 00058) with the University of California, San Francisco.

COURSE OBJECTIVES

(Note: This is only a partial objectives list)

Participants will be able to:

- Identify the latest trends and implement the appropriate treatments for TB, STDs, HIV, Hepatitis C and substance use disorders.
- Articulate the importance of early HIV detection and intervention.
- List 5 evidence-based intervention approaches for HIV prevention.
- State 3 evidence-based prevention strategies to address STD and HIV transmission to decrease transmission in American Indian communities.
- Discuss effective ways to keep patients engaged in medical care, despite declining resources and implement these strategies at the delivery level.
- Identify current treatment options for STDs and prescribe appropriate regimen for their patient population.
