THERAPEUTIC FOSTER CARE (HCTC): A PROVEN TREATMENT MODEL FOR REHABILITATING ADULTS LIVING WITH SERIOUS MENTAL ILLNESS

Paul Davis, LCSW, BCBA, LBA, Director of Foster Care Services
Pat Ortega, MBA, MSIT, Program Manager of Adult Foster Care
LaDonna Jackson, Licensed Therapeutic Home Provider

19th ANNUAL ASU SUMMER INSTITUTE CONFERENCE
High Country Conference Center
Flagstaff, Arizona 86001
Wednesday, July 18, 2018
WORKSHOP OBJECTIVES:

Participants will be able to identify the benefits of a family-based, out-of-home treatment setting for adults living with a serious mental illness.

Participants will be able to describe what Therapeutic Foster Care is and how it achieves sustainable gains in treatment, quality of life, and integrated health among the SMI population.

Participants will be able to describe the essential components of a successful HCTC program model and how to access HCTC services.

Participants will hear about HCTC service delivery “in action” as shared through the experience of a licensed HCTC Provider.
WHAT IS THERAPEUTIC FOSTER CARE (HCTC)?

General Definition:
Home Care Training to Home Care Client (HCTC) services are provided by a behavioral health therapeutic home to a person residing in their home in order to implement the in-home portion of the person’s behavioral health service plan. HCTC services assist and support a person in achieving their service plan goals and objectives. It also helps the person remain in the community setting, thereby avoiding residential, inpatient or institutional care.

HCPCS Codes:
• S5109 HB–Home Care Training to Home Care Client (Adult) – Age 18-64 years
• S5109 HC-Home Care Training to Home Care Client (Adult geriatric) – Age 65 years and older
ADULT HCTC

...WHAT WE DO

Supervision and Provision of Behavioral Health Support Services:

- Personal Care (especially prescribed behavioral interventions)
- Psychosocial Rehabilitation (ADLs; coping with SMI symptomatology)
- Skills Training and Development (ADLs; coping with SMI symptomatology)
- Transportation to healthcare appointments
- Participation in ARTs, treatment, and discharge planning
- Assistance with the self-administration of medication
- Data validation of services provided through daily documentation
ADULT HCTC

...WHAT WE DO

Integrate/Re-integrate individuals into our community:
- By helping them acquire/refine skills that promote self-sufficiency

Model, teach and establish functional relationships within the family context:
- By providing each client with a safe, therapeutic environmental setting in which to practice responsible and appropriate social behavior

Improved integrated health outcomes:
- By improving medication compliance, participation in appropriate medical screenings and care, and reducing psychiatric decompensations resulting in hospitalization
ADULT HCTC
...WHAT WE DO

Population Served:
- Adults 18 and older living with a Serious Mental Illness (SMI)
- In need of assistance with the self-administration of medications
- Typical diagnoses include: psychotic disorders (e.g. schizophrenia and schizotypal disorders) and mood disorders (e.g. bipolar, depression)

Exclusionary Criteria:
- Individuals who require 24-hour awake supervision
- Individuals who are highly aggressive/assaultive
- Individual who are an imminent danger to self or others
- Sex offenders
- Substance Abuse as a primary diagnosis
- Active psychosis not managed by medications
ADULT HCTC

...WHO DELIVERS THE SERVICE?

Behavioral Health Therapeutic Home Providers (THPs):

- Licensed by the Bureau of Residential Facilities Licensing in accordance with Article 18 (up to 3 beds each)
- Family homes with children, extended family, adult household members, etc.
- 30+ foster homes throughout Maricopa and Pima Counties

Mildred                               Amalia                               Esther                               Ibrahim
ADULT HCTC

...WHO DELIVERS THE SERVICE?

Collaborative Healthcare Institution:

- Devereux is the Collaborative Healthcare Institution
- The liaison between the THP and the BRFL

Devereux Program Staff:

- Therapeutic Home Specialist (THS)
- Licensed Clinical Coordinators
- Licensed Assistant Clinical Director for Foster Care
- Program Manager
ADULT HCTC - PROGRAM COMPONENTS

...HOW WE DO IT

Accept Referral
- Referral requested through the ART
- Prior Authorization from RBHA/MCO required

Client Assessment
- Records Review
- Client Interview
- Collateral Interviews
- Suicide Screening (DSTZ)

Matching/Visitation

Placement
ADULT HCTC - PROGRAM COMPONENTS

...HOW WE DO IT (continued)

Service Planning
- Individualized PGOI specific to HCTC intervention
- Promotes client recovery and discharge readiness
- Guides the Therapeutic Home Provider in their implementation of the in-home portion of the ISP
- Reviewed at least every 90 days

Progress Monitoring
- Within Client
- Across Client
- Program-wide

Integrated Care Coordination
- Behavioral Healthcare coordination
- Physical Healthcare coordination

ILLNESS MANAGEMENT & RECOVERY (IMR)

...AN EXCERPT

Client Outcome Survey: Illness Management and Recovery

Please take a few minutes to fill out this survey. We are interested in the way things are for you, so there are no right or wrong answers. If you are unsure about a question, just answer it as well as you can. Check the box for the answer that best fits you.

Client: __________________________________________ Date: ______________

1. Progress toward goals: In the past 3 months, you have come up with …
   - No personal goals
   - A personal goal, but have not done anything to achieve the goal
   - A personal goal and made it a little way toward achieving it
   - A personal goal and have gotten pretty far in achieving the goal
   - A personal goal and has achieved it

2. Knowledge: How much do you feel like you know about symptoms, treatment, coping strategies (coping methods), and medication?
   - Not very much
   - A little
   - Some
   - Quite a bit
   - A great deal

3. Involvement of family and friends in my mental health treatment: How much are family members, friends, boyfriends or girlfriends, and other people who are important to you (outside the mental health agency) involved in your treatment?
   - Not at all
   - Only when there is a serious problem
   - Sometimes, such as when things are starting to go badly
   - Much of the time
   - A lot of the time and they really help with my mental health

4. Contact with people outside of your family: In a normal week, how many times do you talk to someone outside of your family (a friend, co-worker, classmate, roommate, etc.)?
   - 0 times a week
   - 1 to 2 times a week
   - 3 to 4 times a week
   - 5 to 7 times a week
   - 8 or more times a week

5. Time in structured roles: How much time do you spend working, volunteering, being a student, being a parent, taking care of someone else or someone else’s house or apartment? That is, how much time do you spend doing activities that are expected of you for or with another person? (This would not include self-care or personal home maintenance.)
   - 2 hours or less a week
   - 3 to 5 hours a week
   - 6 to 15 hours a week
   - 16 to 30 hours a week
   - More than 30 hours a week

6. Symptom distress: How much do symptoms bother you?
   - Symptoms really bother me a lot
   - Symptoms bother me quite a bit
   - Symptoms bother me somewhat
   - Symptoms bother me very little
   - Symptoms don't bother me at all

7. Impairment of functioning: How much do symptoms get in the way of your doing things that you would like to do or need to do?
   - Symptoms really get in my way a lot
   - Symptoms get in my way quite a bit
   - Symptoms get in my way somewhat
   - Symptoms get in my way very little
   - Symptoms don't get in my way at all

PROGRAM OUTCOMES

...WHY WE DO IT
TRIPLE AIM METRIC:
IMPROVED CONSUMER EXPERIENCE

Client Satisfaction Survey Data CY 2018

- 90% ALWAYS or FREQUENTLY feel safe in their foster home
- 86% ALWAYS or FREQUENTLY feel their THP treats them fairly and appropriately
- 95% ALWAYS or FREQUENTLY feel their THP helps them do and be their best
# TRIPLE AIM METRIC: IMPROVED OUTCOMES

## Health Outcome | CY 2017 | Jan 2018 – Jun 2018
--- | --- | ---
Reduced Hospitalizations | • # of Hospital Days = 1.2% of service days  
• # of Hospital Episodes = 23  
• # of Clients Impacted = 16 (23% of clients served)  
• Range = 1 day to 29 days  
• Median = 171 hospital days / 23 episodes = 7.4 days  
 | • # of Hospital Days = .86% of service days  
• # of Hospital Episodes = 18  
• # of Clients Impacted = 13 (15% clients of served)  
• Range = 1 day to 17 days  
• Median = 92 hospital days / 18 episodes = 5.1 days  

Increased Compliance with Medications | • 3 med errors / 13,524 bed days = 99.98% compliance rate  
• 4 med refusals / 13,524 bed days = 99.97% compliance rate  
• Combined = 99.95% compliance rate  
 | • 2 med errors / 10,614 bed days = 99.98% compliance rate  
• 2 med refusals / 10,614 bed days = 99.98% compliance rate  
• Combined = 99.96% compliance rate
TRIPLE AIM METRIC: REDUCED HEALTHCARE COSTS

$58/day lower cost for Adult HCTC vs. Level 2 Residential placement
- Savings of 21K+ annualized per client
- Savings of 200K+ annualized for every 10 clients

We have approximately 65 clients in placement currently
- Savings of 1.3M per year
- Savings of 4.1M over 3 years
- Savings of 6.8M over 5 years

NOTE: These cost savings do not factor in the savings from reduced hospitalizations
ADULT HCTC – NEXT STEPS

Continued monitoring of Health Outcomes, with the addition of IMR and B-ADL data

Expansion of Service Capacity through Recruitment of THPs

Implementation of Illness Management and Recovery treatment curriculum
- Evidence-based practice (SAMHSA)
- Covers such topics as recovery strategies, building social support, reducing relapses/decompensations, coping with persistent symptoms, etc.
- Uses motivational, educational, and cognitive-behavioral strategies
- 3 to 10 months of weekly or bi-weekly sessions (individual or group)

Expanded Continuum of Services for SMI Adults
- Outpatient Services
- Day Program
- Etc.

WHO WE ARE
UNLOCKING HUMAN POTENTIAL

Devereux Advanced Behavioral Health is one of the largest and most advanced behavioral healthcare organizations in the country. Informed by the latest advancements in science and medicine, we combine evidence-based interventions with compassionate family engagement to help change lives.

We were founded in 1912 by special education pioneer Helena Devereux. Today, Devereux is a national nonprofit partner for individuals, families, schools and communities, serving many of the most vulnerable members of our society in areas of autism, intellectual and developmental disabilities, specialty mental health, and child welfare.

Based in Villanova, Pa., Devereux employs more than 7,000 staff and operates 15 centers in 13 states. We offer a comprehensive national network of clinical, therapeutic, educational, and employment programs and services that positively impact the lives of tens of thousands of children, adults – and their families – every year.

Our programs, offered in hospital and residential, community, and school-based settings, include:
- Comprehensive assessment, diagnostics and measurement to support data-driven care
- Evidence-based treatment and special education
- Transition and independent life services
- Family education and professional training
- Research and innovation to advance the field
- Advocacy, public awareness and prevention

For more than a century, we have been guided by a simple and enduring mission:
To change lives by unlocking and nurturing human potential for people living with emotional, behavioral or cognitive differences.

DEVEREUX ADVANCED BEHAVIORAL HEALTH
MODEL OF CARE™

The Devereux Advanced Behavioral Health Model of Care™ integrates the latest scientific and medical advancements with time-tested philosophies and compassionate family engagement to provide practical, effective and efficient care – making a meaningful difference in the lives of those we serve, and the world around them. We help change the lives of people with autism spectrum disorder, intellectual and developmental disabilities, specialty mental health needs, and child welfare concerns.
Mission:
Since 1912, when a Philadelphia school teacher named Helena Devereux first founded Devereux until today, we remain steadfast in our mission to change lives by unlocking and nurturing human potential for people with emotional, behavioral or cognitive differences. With 12 centers across the United States, we are one of the largest and most advanced behavioral healthcare organizations in the country. We value diversity in our staff, board members, donors and the individuals we serve regardless of race, color, religious creed, ancestry, age, national origin, sex, sexual orientation, gender, or gender identity or expression.

Adult Therapeutic Foster Care (HCTC) Phoenix & Tucson
This program is designed for adult clients (18 and older), who have a serious mental illness and need additional support in daily living activities. Clients who are referred to Devereux are screened for appropriateness and then therapeutically matched with one of our professional providers in a family home setting.

Assessment & Intervention Center (AIC) with Intensive In-Home Wraparound Services Tucson
Devereux's Assessment and Intervention Center (AIC) provides services for male and female youth 12-17 who may have been in multiple treatment settings prior to referral. Our AIC provides a comprehensive evaluation process and intensive youth behavioral intervention in a structured therapeutic environment for up to 30 days.

Autism Phoenix
Our Autism Service supports children and adolescents 0-18 years of age with Autism Spectrum Disorder in the development of communication, social and adaptive skills needed to live independent, fulfilling, productive and socially connected lives.

Brief Intervention with Intensive In-Home Wraparound Services Tucson
Devereux's Brief Intervention facility provides up to 10 days of enhanced residential services to male and female adolescents 12-17 in a structured treatment setting which includes 24-hour supervision and therapeutic services. When combined with our In-Home WrapAround Services, caregivers are provided supports and tools to help individuals successfully transition back home or into the community.

In-Home Services Phoenix
The focus of this service is to improve the safety and well-being of families, enhance family functioning, increase competence in parenting abilities, foster a sense of self-reliance, reduce risk factors, increase protective factors and to stabilize families. The service may be provided in the family's home, the child's current and transitional placement or in various locations throughout the community.
Outpatient Services Phoenix & Tucson

Devereux provides outpatient services to children 0 to 18 years of age. We believe that by partnering with youth and families, needs can be more readily identified and supports put in place to teach new skills and promote independence for successful living. Services are available either in-home or in our offices and include counseling, behavior coaching, skills training and development, psychosocial rehabilitation living skills training, behavioral health prevention, promotion and education, family support, mediation, case management (high needs case management) and much more.

Placement Stabilization (BOOST) Tucson

Using a team approach, Devereux’s Placement Stabilization (BOOST) involves creating a short-term plan to ensure that a child in an out-of-home placement can remain there successfully. Our program is available in Tucson and focuses on teaching skills to children so they can be more successful in the home and school environment. Upon completion of our program, children may be referred for continued intensive in-home care and/or an array of other support services depending upon individual need.

Respite Phoenix & Tucson

Devereux’s Respite program assists youth and families in receiving a break while developing social and daily living skills in a safe and nurturing environment. These short breaks occur in our family or facility based respite homes to help keep families together.

Residential Treatment Center (RTC) Phoenix

Our 24-hour secure, Level I Residential Treatment Center campus sits on 10 acres in beautiful Scottsdale, Arizona. Our 48-bed facility is open 365 days a year, 7 days a week and serves youth ages 5-17 who are experiencing emotional, mental, behavioral and/or substance abuse challenges. The campus also includes a therapeutic day school.

Traditional Foster Care (HRSS) Phoenix & Tucson

Devereux provides foster care services in both Maricopa and Pima counties. We provide recruitment, training, licensure and monitoring of foster homes serving children ages birth through 21. We provide 24 hour crisis consultation and support to our families, as well as in-home support through home visits and foster parent-led support groups for our foster families.

Supporting Devereux

Devereux Advanced Behavioral Health is a 501(c)(3) nonprofit and an Arizona Qualifying Charitable Organization, meaning donations may qualify for a dollar-for-dollar state tax credit of up to $400 filing singly and up to $800 filing jointly. For more information about donating or other opportunities to get involved, visit DevereuxAZ.org.
DEVEREUX FOSTER CARE

As part of the Devereux Advanced Behavioral Health network and continuum of care, our foster care programs operate with the belief that all individuals deserve a loving, supportive and nurturing family – and a positive home environment – to help them reach their unique potential.

Devereux impacts the lives of thousands of individuals in the foster care system every year. We care for children – from infancy to 21 years of age – who have been removed from their biological families due to abuse or neglect, and who have been diagnosed with emotional, behavioral and/or cognitive differences. Our foster care programs also offer services for adults who have been diagnosed with mental illness. Foster care services – offered in Arizona, Florida, Georgia, Massachusetts/Rhode Island, New Jersey and Pennsylvania – include:

- **Traditional Foster Care (AZ, FL, PA):** Foster care homes for children and adolescents that provide 24-hour crisis consultation and support to families through our professional staff, as well as in-home assistance and foster parent support groups. In Pennsylvania, we accept mother/baby referrals.
- **Therapeutic Foster Care (AZ, FL, GA, MA/RI, NJ, PA):** Specially-trained foster parent homes that provide a stable, supportive and highly-supervised home environment for children and adolescents with medical, psychological, social and emotional needs, including youth diagnosed with intellectual and developmental disabilities and/or Autism Spectrum Disorders.
- **Adult Therapeutic Foster Care (AZ, FL, PA):** Foster or life-sharing homes specifically designed for adults diagnosed with developmental differences and/or mental illness who need support with daily activities in a family-based setting.
- **Respite Care (AZ, PA):** Foster homes offer planned respite care for youth – both in the foster care system and the community – to prevent out of home placements. Devereux also offers respite care for adults in our foster care programs.

Devereux works closely with LGBT foster and adoptive families. As a result of our efforts, our Arizona, Florida and Georgia centers hold the Human Rights Campaign’s (HRC) “HRC All Children – All Families Seal of Recognition.”

FOSTER PARENT/PROVIDER RESOURCES

Foster parents/providers are a critical part of each foster individual's "team" and are trained to: 1) provide a nurturing, caring and structured environment within their homes, and 2) care for those who may have challenging behaviors or special needs. All Devereux foster parents/providers receive support from a variety of resources to prevent and reduce stress and family crisis, including:

- Free training and support groups.
- Frequent consultation with our knowledgeable staff who have expertise working with individuals with emotional, behavioral and/or cognitive differences.
- Comprehensive mental health services for the individual; medical care is paid by the state.
- Paid respite care and financial assistance to help with the individual’s food, clothing and personal allowance.

We seek a diverse pool of foster parents/providers who reflect our diverse clientele. Devereux welcomes single, married, partnered, or cohabitating individuals to become foster parents/providers.

SPECIALTY MENTAL HEALTH SERVICES

Devereux Advanced Behavioral Health provides innovative programs and services for children, adolescents and adults with emotional and behavioral differences in community and residential settings. Diagnoses include anxiety disorders, bipolar disorder, post-traumatic stress disorder, depression, ADHD, psychotic disorders and disruptive behavior disorders. Devereux is committed to providing trauma-focused care across the organization. Note: Services for adolescents/young adults are provided through age 21. Our continuum of care includes:

- **Acute Care**: For individuals in crisis, intensive, short-term treatment is available at psychiatric hospitals. Children: PA | Adolescents: PA
- **Treatment in Residential Settings**: For those in need of 24-hour care, our residential programs provide the resources needed to meet an individual’s behavioral health treatment, as well as social and educational goals. Children: AZ, CO, CT, FL, GA, MA, PA, TX | Adolescents: AZ, CO, CT, FL, GA, MA, PA, TX | Adults: CT, TX
- **Community-Based Living**: Services and supports offer more independent living options for individuals who wish to reside within their communities through group homes, lifesharing or supported apartments. Adolescents: FL, GA, MA | Adults: TX
- **Outpatient Services**: Treatment is provided in the least restrictive environment possible through wraparound services, respite, clinical/educational assessments, family counseling, and medication management. Children: AZ, CO, DE, FL, PA, RI | Adolescents: AZ, CO, DE, FL, PA, RI
- **Special Education Day Schools**: Our day schools offer innovative special education programs within a structured environment. Children: AZ, CO, CT, FL, GA, MA, PA, TX | Adolescents: AZ, CO, CT, FL, GA, MA, PA, TX
- **Foster Care**: Our Therapeutic Foster Care programs provide services to a diverse population of at-risk children and adolescents. Children: AZ, FL, GA, MA, NJ, PA, TX | Adolescents: AZ, FL, GA, MA, NJ, PA, TX
- **Employment and Transition Services**: Pre-vocational training, community-supported employment and a host of services/supports for youth and adults. Adolescents: CO, CT, FL, GA, MA, PA | Adults: CA, TX

Devereux Advanced Behavioral Health, founded in 1912 by special education pioneer Helena Devereux, is one of the largest and most advanced behavioral healthcare nonprofit organizations in the country. We serve many of the most vulnerable members of our society in the areas of autism, intellectual and developmental disabilities, specialty mental health and child welfare.
